

中国科学院生物物理研究所

贝时璋讲座

报告题目: Structural and Biochemical Studies for Epigenetic Chromatin Regulation

报告人: Hitoshi Kurumizaka 教授

报告时间: 2017年11月8日(周三) 10:00

报告地点: 图书馆报告厅

主持人: 李国红研究员

报告人简介

2008 – present :

Full Professor, Faculty of Science and Engineering, Waseda University; Visiting Research Professor, Yokohama City University.

2003 – 2008:

Associate Professor, Faculty of Science and Engineering, Waseda University

1997 – 2003:

Research Scientist, RIKEN

1995 – 1997:

Postdoctoral fellow, National Institute of Child Health and Human Development, National Institutes of Health, USA

研究领域:

Chromatin structure, dynamics, and function.

Homologous recombination.

DNA repair.

Protein-DNA interaction.
